

Biology Minor. Curriculum Guide

Three courses required (3 credits)

BIOL110 Exploring Biology

BIOL180 Exploring Diversity in Biology

BIOL180 Exploring Unity in Biology

Electives (3 credits) - 2xx or above

Additional course from theme A or theme B

Additional course from theme A or theme B

Additional course from theme A or theme B

Some courses may have required pre-requisites. Before students register for classes, they must check to make sure all prerequisites have been met.

Theme A Courses

Theme B Courses

BIOL 205 - General Ecology	BIOL 210 - Cell Biology
BIOL 225 - History of Life	BIOL 245 - Special Topics
BIOL 235 - Microbiology	BIOL 246 - Special Topics
BIOL 245 - Special Topics	BIOL 260 - Human Anatomy & Physiology II
BIOL 246 - Special Topics	BIOL 305 - Principles of Physiology
BIOL 265 - Plant Diversity	BIOL 310 – Comparative Animal Physiology
BIOL 270 - Invertebrate Biology	BIOL 315 - Genetics
BIOL 275 - Vertebrate Biology	BIOL 345 - Special Topics
BIOL 280 - Animal Biology	BIOL 346 - Special Topics
BIOL 290 - Parasitism	BIOL 365 - Plant Anatomy & Physiology
BIOL 300 - Aquatic Ecology	BIOL 370 - Immunology
BIOL 320 – Systems Biology	BIOL 380 - Advanced Genetics
BIOL 330 - Community Ecology	BIOL 400 - Molecular Biology
BIOL 335 - Biogeography and Systematics	BIOL 420 - Developmental Biology
BIOL 340 - Animal Behavior	
BIOL 345 - Special Topics	
BIOL 346 - Special Topics	
BIOL 415 - Evolution
