Transferring in courses on this checksheet from other institutions

- IF you started here previous to Fall 2023 as a Freshman: you may only use three transfer courses as INQ 200 substitutions.
- IF you started here Fall 2023 or later, or if you started here as a transfer student at any time: Before you come to RC you might have taken a lot of college courses, or done dual enrollment, or taken AP exams. We'll transfer every eligible course we can into the INQ curriculum, without limit, before you start here
 - o If you transfer in more than two 200-level courses, you will not be eligible for disciplinary substitutions for your remaining INQ courses. They must be courses labeled INQ.
- Once you start at RC, you must fulfill your INQ courses with RC courses and follow our substitution rules. Exceptions are made for study abroad – so do think about studying abroad
- Once you start at RC, all foreign language classes must be taken at RC to be credited
