ROANOKE COLLEGE  
Department of Fine Arts  
Degree in Music  
Career Advising Guide

Following are some of the jobs typically open to Roanoke College graduates with a major or minor in music. The list is by no means exhaustive, so think of it as a starting point—a source of ideas from which you can branch out and discover some of the things you would most enjoy doing. Why you chose music as your field is as important as the degree itself. Equally important are the non-academic experiences and skills you acquire outside the classroom: part-time or summer jobs, volunteer work, special training, extracurricular activities. If you have questions about any of the occupational fields or need other information, talk to a faculty member in the Music Department or a staff member in the Office of Career Services.
