

Save time and money on prescriptions with home delivery

Getting your prescription drugs doesn't have to be a drag. We help make it easier and more convenient for you to get the medicines you need.

Home delivery: Skip the drugstore line

If you take prescription medicines on a regular basis, you can get up to a 90-day supply delivered to your home.¹ And depending on your plan, you may save on copays. That's because a 90-day supply of many drugs usually costs less than three 30-day refills.

Missing even one dose of a medicine that treats long-term conditions like high blood pressure or diabetes may lead to serious health problems and higher health care costs. That's why home delivery is a great way to make sure you get your prescription refills when you need them.

Standard shipping is free, and you can set up automatic renewals to get your next three-month supply sent to you before the refill date.

How to get started with home delivery

Getting set up for home delivery is easy. Just call the **Pharmacy Member Services** phone number on the back of your health plan ID card. You can also mail in your order with our order form found on [anthem.com](https://www.anthem.com). Choose **Individual & Family**, then **Forms**.

If you have mandatory or opt-out home delivery, you can also use our mobile app, Sydney Health, or go to the [anthem.com](https://www.anthem.com) website.

The steps are the same on the app or the website:²

2. Choose **Pharmacy** in the main menu.
3. On the *Pharmacy* page, choose **View Your Prescriptions** and follow the instructions to switch prescriptions from your retail pharmacy to home delivery.
4. You can also update things like your shipping address and payment options.
