Exposure Flowchart –Unvaxxed or Unboosted*

- I've been in close contact** with someone...
- ...who has been exposed and has symptoms or has tested positive for COVID-19
- ...who might have been exposed
- ...and is experiencing symptoms?
- ...is NOT experiencing symptoms
- Get tested and isolate for 5 days if positive, return to work if negative, wear a mask for the next 5 calendar days.
- If you have a private office, continue working. Keep your office door closed and limit interactions in the office. Wear a mask around others for 10 days and test on day 5. If you do not have a private office, quarantine at home and test on day 5. If negative, return to work and wear a mask for the next 5 calendar days.
- Quarantine for 5 days and test on day 5. If negative, return to work as long as all symptoms (including fever) have been fully resolved for at least 24 hours. Wear a mask for the next 5 calendar days.
- Continue working. If you begin to feel unwell, get tested and isolate if positive.

*FULLY VAXXED AND BOOSTED
If you are more than 5 months out from full vaccination for Pfizer or Moderna or 2 months out from full J&J Vaccination, you must also have a booster shot. If you are outside those windows, refer to the 'unvaxxed or unboosted' flowchart.

*CLOSE CONTACT:
Prolonged Time: at least 15 minutes within 6 feet over a 24 hour period OR Direct Physical Contact (i.e. kissing) OR Shared eating or drinking utensils OR Contact with respiratory secretions
