- Hearing Preparation: Questions
- Hearing Process Overview and Challenges
- Deliberations/ Determination
- Wrap-Up

# ABOUT US

## Vision

We exist to create safe and equitable work and educational environments.

## Mission

To bring systemic change to how school districts and institutions of higher education address their Clery Act & Title IX obligations.

## Core Values

- Responsive Partnership
- Innovation
- Accountability
- Transformation
- Integrity

# OVERVIEW

01

# CHECK YOUR JURISDICTION

## Policies Often Specify the Following for TIX Hearings:

- Meets Title IX harassment definition
- Occurred in educational program or activity
- In the United States
- Complainant is participating in education program as of formal complaint

## Does Your Policy Go Further?

- Do off-campus cases go through a hearing if the alleged conduct could create a hostile environment on campus?
- Are there any different rules between TIX and Non-TIX Hearing?
- Should the case be dismissed to another Policy/Process?

# A FEW CONSIDERATIONS

- Campus-initiated complaint
- Privacy/Need to Know
- Impartiality for Hearing Officers/Panelists
- Conflicts of Interest
- Definitions
- Informal Resolutions

# PROCEDURAL REQUIREMENTS FOR TITLE IX INVESTIGATIONS

Notice to BOTH parties

Equal opportunity to present evidence

An advisor of choice

Written notification of meetings, etc., and sufficient time to prepare

Opportunity to review all directly related evidence, and 10 days to respond to the evidence prior to completion of the report

Report summarizing relevant evidence and minimum 10-day review period prior to hearing

# A TITLE IX INVESTIGATION REPORT THAT FAIRLY SUMMARIZES THE EVIDENCE:

- Relevant
- Presentation of evidence – usually no conclusions
- Material disputed and undisputed facts
- Incorporates relevant responses to the evidence

# STANDARD HEARING CONSIDERATIONS

Must be live, but can be conducted remotely

Participation is voluntary

Standard of proof used is preponderance of the evidence

Cross examination must be permitted and must be conducted by advisor

Hearing Chair/Officer rules on relevancy for all questions

Written decision issued to all parties

# HEARING TECHNOLOGY: REQUIREMENTS AND CONSIDERATIONS

01

If hearings cannot be in person, or if someone chooses to participate remotely, must have a remote participation platform available

02

The campus must create a recording or transcript to have available for the parties' inspection/review

03

Participants must be able to communicate with decision makers and advisors during the hearing

# CONSIDERATIONS FOR REMOTE HEARINGS

- Link provided to the parties day before or day of hearing
- Breakout rooms
- Enabling transcript
- Who will coordinate the hearing?
- Who will record?
- Disable chat

# HEARING PREPARATION: DOCUMENTS

02

- The Investigation Report
- The Appendices (Evidence Attached)
- The Notices of Investigation
- The Notices of Hearing

# DO YOU KNOW YOUR SCOPE?

When reviewing the documents, ask yourself:

- Do the charges in the investigation notice match the scope you have been given (and the hearing notices)?
- Was every allegation in the investigation notice addressed in the investigation report?
- Do you have all relevant documents?
  - Is any document mentioned in the report not accounted for?
  - Do the parties mention a piece of evidence that you don't have?
- Do you know which policy or part of the policy applies?
  - Is it following jurisdiction requirements?

# REVIEWING THE DOCUMENTS

- Read and re-read the policy definitions
- Identify the material disputed and undisputed facts
- Initial read – is there anything you don't understand?
- Are there any gaps where a party or witness was not asked about a material point?
- Take notes

# MEET WITH THE PANEL (IF APPLICABLE)

## Get Organized!

- Which witnesses do you want?
- Is the exclusionary rule still in your policy (OCR guidance says not to use it)
- Streamline question drafting.
- Who will prepare the hearing script?
- How will questions be asked?
  - (Recommend Chair takes the lead if there is a Panel)

# PRE-HEARING MEETINGS

- Review the logistics for the hearing
- Set expectations
  - Format
  - Roles of the parties
  - Participation
- Rules of decorum
- Impact of not following rules
- Cross Examination/Questioning Format & Expectations

# GROUP DISCUSSION – PRE-HEARING REQUESTS

## How would you handle...?

- The Appendices contain negative comments about how Respondent generally treated Complainant in their relationship. Respondent wants these redacted and wants a new Panel or Hearing Officer who has not seen the information.
- Complainant wants a new witness who was not interviewed during the investigation. The witness will speak to the impact of the incident on Complainant.
- Respondent says that the Investigator failed to include a text message in the final evidence that Respondent submitted during the investigation.
- Complainant wants a witness to serve as their advisor.

# HEARING PREPARATION: QUESTIONS

03

# GENERAL QUESTIONS TO CONSIDER ASKING

Were your statements captured accurately?

What is your relationship with the parties?

Do you agree that the undisputed facts (if listed in report) are undisputed?

Have you communicated with either party (for witnesses) or with witnesses (for parties) about the hearing?

Do you know of any motive any of the witnesses would have to falsify/misrepresent?

Anything else you think would be relevant for Hearing Officer/Panel to know?

# WHEN QUESTIONING....

- Be efficient
- Be open to go down a road that you hadn't considered or anticipated exploring
- Explore areas where additional information or clarity is needed
- Take your time
- Be thoughtful
- Take breaks if you need to
- Listen to the answers

# THE “HARD” QUESTIONS

Details about the  
sexual conduct

Seemingly  
inconsistent behaviors

Inconsistent  
evidence/information

What they were  
wearing

Alcohol or drug  
consumption

Probing into reports of  
lack of memory

# HOW TO ASK THE HARD QUESTIONS

- **Lay a foundation**
  - Explain why you are asking
  - Share the evidence that you are asking about, or that you are seeking a response to
- **Be deliberate and mindful**
  - “Can you walk me through your thought process...”
  - “Help me understand...”
  - “Did you consider...”

**WHOM DO WE WANT  
TO QUESTION?**

Grand River Solutions

# THE INVESTIGATOR: TO QUESTION OR NOT?

- Investigator is usually a fact-witness. If no recommended findings given, Investigator should not be questioned about opinions or credibility assessments.
- Goal is for a report that stands on its own. Any Investigator presentation (if required under Policy) should be brief.
- As Hearing Officer/Panelist, consider if you really need to ask Investigator questions. In most cases, it's not necessary unless you really need more information to understand something in the report.
- Hearing Officer/Chair should not allow questions that go beyond Investigator's role.

# JEN AND CAM – PRACTICE QUESTIONING

## Donna Witness has the wrong date!

- How might this reveal factor into the later determination?

# HEARING PROCESS OVERVIEW AND CHALLENGES

04

# ORDER OF PROCEEDINGS

1. Introductions and Instructions by the Hearing Officer/Chair; Opening Statements

2. Presentation by Investigator (if necessary)

3. Questioning of the Parties and Witnesses

4. Closing Statements

5. Deliberation & Determination

## PRESENTATION OF INFORMATION & QUESTIONING OF THE PARTIES

# TIPS FOR ADVISORS

- Thoroughly review the documents prior to meeting with advisee and take notes.
- Let Advisee lead the process. Encourage and give pointers, but this is their process.
- Support vs. zealous advocacy
- Reach out to Coordinator with any process questions or Hearing Officer requests.
- LISTEN carefully to what Hearing Officer asks at the hearing – avoid duplication
- Challenges – non-relevant or non-neutral questions

# WHEN ASSESSING RELEVANCE, THE HEARING OFFICER/CHAIR CAN:

Check your policy!

- Ask the person who posed the question why the question is relevant
- Reframe the question
- Take a break

# HOW WOULD YOU RULE?

## Questions from Respondent Advisor

1. To Complainant – How often do you go out partying?
2. To Complainant – Have you ever been in a relationship before where you had sex even if the relationship was not committed?
3. To Complainant – You changed sexual positions with Respondent during the incident, didn't you?
4. To Anna Witness – Isn't it true Complainant is in the habit of getting drunk on the weekends?

# HOW WOULD YOU RULE?

## Questions from Complainant Advisor

1. To Respondent – Isn't it true that you called Complainant demeaning names during the relationship like "fatso" or "bitch?"
2. To Respondent – You previously said you didn't see Complainant drink any alcohol at the party. Now you are saying she "may" have had some shots. Which is it?
3. To Connor Witness – Do you think Respondent respects women?

# HOW WOULD YOU ADDRESS:

**dilemma** /dɪˈlem  
difficult situation  
between two or more

- When time comes for cross of Complainant, she says she will not answer any of Respondent's questions.
- Respondent's advisor states that Complainant is "making faces" during Respondent's testimony.
- Complainant objects that Respondent's question for a witness is not relevant.
- Beatrice Witness declines to participate, saying she has an exam the day of the hearing.

# DELIBERATIONS/DETERMINATION

05

# HEARING WRITTEN DETERMINATION WILL USUALLY INCLUDE:

- Policy reported to have been violated (with section specified)
- Description of all procedural steps
- Findings of fact
- Policy analysis (are the elements met)
- Rationale for determination
- Sanctions and remedies
- Timing of when these become final
- Procedure for appeal

# ASSESSING CREDIBILITY AND RELIABILITY

No formula exists, but  
consider the following:

Sufficiency of detail and specificity

Internal consistency

Corroboration

Inherent plausibility

Material omission

Motive to falsify

Ability to recall events

# FINDINGS OF FACT

- **A "finding of fact"**

- The decision whether events, actions, or conduct occurred, *or* a piece of evidence is what it purports to be
- Based on available evidence and information
- Determined by a preponderance of evidence standard
- Determined by the fact finder(s)

- **For example...**

- Complainant reports that she fell on the stairs and Respondent helped her up. Respondent says this never happened.
- Witness produces a timestamped video of Complainant falling, and Respondent helping her up.

- **Next steps?**

# A RETURN TO THE DISPUTED FACTS

## Disputed

- How much alcohol Complainant drank and over what timeline
- Whether Complainant fell/had trouble with balance during the party
- Whether Complainant slurred her words
- Whether Complainant vomited
- Whether Complainant required physical assistance
- Whether Complainant initiated sexual touching in Respondent's room
- What verbal communications occurred between the parties leading up to/during sex
- Whether Complainant actively participated in the intercourse
- Whether Complainant discussed with Respondent any concerns about the incident afterward

# ANALYSIS GRID

**Was any sexual act directed against another person?**

**Was Complainant incapable of consent?**

**Did Complainant give signs of consent?**

Undisputed:

Respondent penetrated Complainant's vagina with his penis.

This is where the most analysis is needed.

What is the relevance of the past conversation(s) about sexual boundaries?

More likely than not:  
Respondent asked about a condom, and Complainant said "sure."

# APPLYING THE DEFINITION OF CONSENT

Check your policy!

Consent is:

- Voluntary and knowing
- Freely given (no coercion)
- Communicated by word or act

Significant note:

- *Existence of consent is based on the totality of the circumstances evaluated from the perspective of a reasonable person in the same/similar circumstances.*

# INCAPACITATION

**Check Policy definition. Will typically include language like...**

- A person is so affected by alcohol or drugs that the person cannot understand the nature of the sexual act (the who, what, when, where, why or how) or agree to it.
- Usually considers what a reasonable person in Respondent's shoes "should have known." Voluntary intoxication by Respondent would not usually be a defense to failing to note signs of incapacitation.
- Incapacitation is determined through consideration of all relevant indicators of an individual's state.
- Intoxication and incapacitation are not the same thing.
- Memory loss can be a factor relevant to evaluating incapacitation, but it is not the only factor.

# HOW MIGHT HEARING RESPONSES IMPACT YOUR FINDINGS?

Witness Connor says Respondent told him, “I need to get Complainant back to my room so she can sleep it off.”

Witness Anna says Complainant told her after the incident, “Did I want to have sex in the moment? I guess. But he should have known better after I set our relationship boundaries.”

## **FACTORS TO CONSIDER IN SANCTIONING AND REMEDIES (CHECK POLICY)**

- The nature, severity of, and circumstances surrounding the violation(s)
- The Respondent's (relevant) disciplinary history
- The need for sanctions/responsive actions to bring an end to the discrimination, harassment, and/or retaliation
- The need for sanctions/responsive actions to prevent the future recurrence of discrimination, harassment, and/or retaliation
- The need to remedy the effects of the discrimination, harassment, and/or Retaliation on the Complainant and the community
- Impact on the Complainant
- Any other information deemed relevant by the Decision-maker(s)

# THINKING AHEAD TO THE APPEAL

- Don't Take it Personally:
  - Allegations of bias may still be listed in the appeal even when you have applied neutral principles.
- What You Can Control:
  - Remain neutral and to be aware of perception of bias.
  - Ask necessary but neutrally-worded questions.
  - Ensure the determination addresses reliability/credibility but avoids extraneous commentary.

# COMPLIMENTARY SUBSCRIPTION
